Dear Sir:

In response to the Communication dated December 4, 2006, which notes the submission of two different sets of application papers to enter the national stage in the United States, Applicant petitions the Patent Office to accept the application papers filed on August 28, 2006, submitted by the undersigned representative.

## APPLICANT HEREBY PETITIONS UNDER 37 CFR 1.182

STATEMENT:

The present application is a national stage entry in the United States, which claimed priority of international application PCT/IB2005/050663. The priority international application and all rights to national entry filings have been assigned to the assignee of the present application ("Assignee") by Philips, the prior assignee of the international application.

Applicant submits that the duplicate national stage entry request by Philips on August 21, 2006 arose from confusion during the transition stage, when Philips was transferring assigned patent files to Assignee. Due to misunderstanding with respect to which entity has the responsibility to request the national stage entry, both Philips and the Assignee requested national stage entry, resulting in the duplicate applications on August 21, 2006 and August 28, 2006.

Given that the inventor of the present application executed the form assignment that had been recorded on August 28, 2006 (Reel/Frame: 018287/0364), the present application should be the application to be forwarded for examination, and Applicant wishes to abandon the duplicate application filed on August 21, 2006 in favor of the present application.

Applicant respectfully submits that the inadvertent duplicate filings were the result of mistake without deceptive intent.

Petition Fee:

\$400.00 (Petition Fee Under 37 CFR 1.17(f)) is enclosed.

The Assistant Commissioner is hereby authorized to charge any fees which may be required by this Petition to Deposit Account Number 501288 referencing docket no. 1217/202.

Terminal disclaimer:

Since the utility was filed on or after June 8, 1995, no terminal disclaimer is required.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Dated: January 26, 2007

Respectfully submitted,

By:
